INDEX

ABSTRACTS of scientific papers presented at the Marine Biological Laboratory, Summer of 1942, 290.

Acclimatization, of marine fishes, and resistance of, to experimental changes, 219.

Acetylcholine, action of, on arthropod hearts, 145.

ALLEE, W. C., A. J. FINKEL, H. R. GARNER, G. EVANS AND R. M. MERWIN. Some effects of homotypic extracts on the rate of cleavage of Arbacia eggs, 245.

Ameoba, hydrogen ion concentration of content of food vacuoles and cytoplasm in, 173.

ANDERSON, BERTIL G., AND JOSEPH C. JENKINS. A time study of events in the life span of Daphnia magna, 260.

ANDREWS, E. A. Parafolliculina violacea (Giard) at Woods Hole, 91.

Annual report of the Marine Biological Laboratory, 1.

Arbacia eggs, some effects of homotypic extracts on cleavage rate of, 245.

Arthropods, action of acetylcholine on hearts of, 145.

Asterias forbesi, ciliary transport system of, 438.

Autolysis, of fish muscle, 129.

Avian relationships, serological study of, 205.

Axolotl, eggs of, induction of triploidy and haploidy in, by cold treatment, 367.

BAILEY, BASIL, P. KORAN AND H. C. BRADLEY. The autolysis of muscle of highly active and less active fish, 129.

BAYLOR, E. R. Cardiac pharmacology of the Cladoceran, Daphnia, 165.

BISHOP, DAVID W. Oxygen consumption of fox sperm, 353.

Blepharipoda occidentalis Randall, pelagic larval stages of, 67.

BRADLEY, H. C. *See* Bailey, Koran and Bradley, 129.

BUDINGTON, ROBERT A. The ciliary transport system of Asterias forbesi, 438.

CATFISH, freezing-point of urine of, 363.

Cellulose, digestion of, in Eudiplodinium neglectum, 303.

Cilia, in transport system of Asterias, 438.

CLAPP, MARY JEANNE. *See* Haywood and Clapp, 363.

Cleavage, rate of as effected by homotypic extracts, 245.

CRAMPTON, HENRY E. *See* Forbes and Crampton, 283.

Crustacean, influence of certain drugs on nerve-muscle system of, 334.

DAPHNIA, cardiac pharmacology of, 165.

Daphnia magna, events in the life span of, 260.

DEFALCO, RALPH J. A serological study of some avian relationships, 205.

Development, rate of, in Rana catesbiana, 375.

Digestion, of cellulose, in Eudiplodinium neglectum, 303.

Digestion, of fat, in Pelomyxa, 320.

Dimorphism, sexual, in Gambusia, 389.

DUODOROFF, PETER. The resistance and acclimatization of marine fishes to experimental changes. I. Experiments with Girella nigricans (Ayres), 219.

Drugs, influence of, on crustacean nerve-muscle system, 334.

ECTOCHAETE (Huber) Wille, a new species of, 97.

Eggs, axolotl, induction of triploidy and haploidy in, 367.

ELLIS, C. H., C. H. THIENES AND C. A. G. WIERSMA. The influence of certain drugs on the crustacean nerve-muscle system, 334.

Emerita analoga (Stimpson), pelagic larval stages of, 67.
Environmental factors, effect of on sperm cycle of Triturus viridescens, 111.
Eudiplodinium neglectum, culture of, with experiments on digestion of cellulose, 303.
Evans, G. *See* Allee, Finkel, Garner, Evans and Merwin, 245.

Fankhauser, G., and R. R. Humphrey. Induction of triploidy and haploidy in axolotl eggs by cold treatment, 367.
Field, J., II. *See* Van Wagtendonk, Fuhrman, Tatum and Field, 137.
Finkel, A. J. *See* Allee, Finkel, Garner, Evans and Merwin, 245.
Fish, autolysis of muscle of highly active and less active, 129.
Fission, binary, in the sea-cucumber, 55.
Forbes, Grace Springer, and Henry E. Crampton. The effects of population density upon growth and size in Lymnaea palustris, 283.
Freezing-point, of urine of fresh-water fish, 363.
Fuhrman, F. A. *See* Van Wagtendonk, Fuhrman, Tatum and Field, 137.

Gambusia, sexual dimorphism in pectoral fin of, 389.
Garner, H. R. *See* Allee, Finkel, Garner, Evans and Merwin, 245.
Girella nigricans, resistance and acclimatization of, to experimental changes, 219.
Glycolysis, effects of Triturus toxin on, 137.

Haploidy, induction of, in axolotl eggs, 367.
Hare, Laura. *See* Martin and Hare, 428.
Haywood, Charlotte, and Mary Jeanne Clapp. A note on the freezing-points of the urines of two fresh-water fishes: the catfish (Ameiurus nebulosus) and the sucker (Catostomus commersonii), 363.
Hearts, analysis of action of acetylcholine on, 145.
Holothuria parvula (Selenka), regeneration of reproductive system of, 55.
Hormones, androgenic, induction of male character in female by, in Gambusia, 389.
Humphrey, R. R. *See* Fankhauser and Humphrey, 367.
Hungate, R. E. The culture of Eudiplodinium neglectum, with experiments on the digestion of cellulose, 303.

Ifft, John D. The effect of environmental factors on the sperm cycle of Triturus viridescens, 111.

Jenkins, Joseph C. *See* Anderson and Jenkins, 260.
Johnson, Martin W., and Weldon M. Lewis. Pelagic larval stages of the sand crabs, Emerita analoga (Stimpson), Blepharipoda occidentalis Randall, and Lepidopa myops Stimpson, 67.

Kille, Frank R. Regeneration of the reproductive system following binary fission in the sea-cucumber, Holothuria parvula (Selenka), 55.
Koran, P. *See* Bailey, Koran and Bradley, 129.

Larvae, of Tenebrio molitor, nutritive requirements of 428.
Larval stages, pelagic, of the sand crabs, 67.
Lepidopa myops Stimpson, pelagic larval stages of, 67.
Lewis, Weldon M. *See* Johnson and Lewis, 67.
Life history, of Peltogaster paguri, 401.
Lymnaea palustris, effects of population density upon, 283.

Mahr, Merle M. Precipitin reactions and species specificity of Monezia expansa and Monezia benedeni, 88.
Marine Biological Laboratory, abstracts of scientific papers presented at, 1942, 290.
Marine Biological Laboratory, annual report of, 1.
Marine fishes, resistance and acclimatization of, to experimental changes 219.
Martin, Hugh E., and Laura Hare. The nutritive requirements of Tenebrio molitor larvae, 428.

MAST, S. O. The hydrogen ion concentration of the content of the food vacuoles and the cytoplasm in Amoeba and other phenomena concerning the food vacuoles, 173.
MERWIN, R. M. *See* Allee, Finkel, Garner, Evans and Merwin, 245.
MILLER, JAMES A. Some effects of covering the perisarc upon Tubularian regeneration, 416.
Monezia benedeni, precipitin reactions and species specificity of, 88.
Monezia expansa, precipitin reactions and species specificity of, 88.
MOORE, JOHN A. Embryonic temperature tolerance and rate of development in Rana catesbiana, 375.
MULLINS, LORIN J. The permeability of yeast cells to radiophosphate, 326.
Muscle, autolysis of, in less active and highly active fish, 129.

NERVE-MUSCLE system, crustacean, influence of certain drugs on, 334.
Nitrogen, organic, observations upon gaseous and dissolved, 273.
Nitrogenous organic matter in sea water, factors influencing length of cycle of, 273.
Nutrition, in Tenebrio molitor larvae, 428.

OXYGEN, consumption of, by fox sperm, 353.

PARAFOLLICULINA violacea at Woods Hole, 91.
Parasitism, in Peltogaster paguri, 401.
Pectoral fin, sexual dimorphism in, of Gambusia, 389.
Pelomyxa carolinensis, digestion of fat in, 320.
Peltogaster paguri, life history and host parasite relationship of, 401.
Perisarc, some effects of covering, in Tubularian regeneration, 416.
Permeability, of yeast cells, to radiophosphate, 326.
Pharmacology, cardiac, of Daphnia, 165.
Phosphate, permeability of yeast cells to radiophosphate, 326.
Population, effects of density on Lymnaea palustris, 283.
Precipitin reactions, of Monezia, 88.
PROSSER, C. LADD. An analysis of the action of acetylcholine on hearts, particularly in arthropods, 145.

RAKESTRAW, NORRIS W. *See* von Brand, Rakestraw and Zabor, 273.
Rana catesbiana, embryonic temperature tolerance and rate of development in, 375.
Regeneration, of the reproductive system in Holothuria parvula (Selenka), 55.
Regeneration, Tubularian, as affected by covering the perisarc, 416.
REINHARD, EDWARD G. Studies on the life history and host-parasite relationship of Peltogaster paguri, 401.
Reproductive system, regeneration of, in Holothuria parvula (Selenka), 55.
Respiration, tissue, effects of Triturus toxin on, 137.
Rhizopod, digestion of fat in, 320.

SAND crabs, pelagic larval stages of, 67.
Sea-cucumber, regeneration of reproductive system of, 55
Sea water, decomposition and regeneration of nitrogenous organic matter in, 273.
Serology, study of, in avian relationships, 205.
Sperm cycle, effect of environmental factors on, in Triturus viridescens, 111.
Sperm, fox, oxygen consumption of, 353.
Sucker, freezing-point of urine of, 363.

TATUM, E. L. *See* Van Wagtendonk, Fuhrman, Tatum and Field, 137.
Temperature, embryonic, tolerance and rate of development, in Rana catesbiana, 375.
Tenebrio molitor, nutritive requirements of larvae of, 428.
THIENES, C. H. *See* Ellis, Thienes and Wiersma, 334.
THIVY, FRANCESCA. A new species of Ectochaete (Huber) Wille from Woods Hole, Massachusetts, 97.
Toxin, Triturus, chemical nature and effects on tissue respiration and glycolysis of, 137.
Transport system, ciliary, of Asterias forbesi, 438.
Triploidy, induction of, in axolotl eggs, 367.
Triturus, toxin, chemical nature and effects on tissue respiration and glycolysis of, 137.

Triturus viridescens, effect of environmental factors of the sperm cycle on, 111.

Tubularia, regeneration of, as affected by covering the perisarc, 416.

TURNER, C. L. Sexual dimorphism in the pectoral fin of Gambusia and the induction of the male character in the female by androgenic hormones, 389.

URINE, freezing-point of, in freshwater fish, 363.

VACUOLES, food, in Amoeba, 173.

VAN WAGTENDONK, W. J., F. A. FUHRMAN, E. L. TATUM AND J. FIELD, II. Triturus toxin: Chemical nature and effects on tissue respiration and glycolysis, 137.

VON BRAND, THEODOR, NORRIS W. RAKESTRAW, AND J. WILLIAM ZABOR. Decomposition and regeneration of nitrogenous organic matter in sea water. V. Factors influencing the length of the cycle; observations upon the gaseous and dissolved organic nitrogen, 273.

WIERSMA, C. A. G. *See* Ellis, Thienes and Wiersma, 334.

WILBER, CHARLES G. Digestion of fat in the rhizopod, Pelomyxa carolinensis, 320.

YEAST, permeability of cells of, to radiophosphate, 326.

ZABOR, J. WILLIAM. *See* von Brand, Rakestraw and Zabor, 273.
